

Agent Randel,

I h.a.v-e sent y.o.u this c-a.se file as y-o-u are t.he o.n-l.y one
in the B.u-r-e.au t.h-a.t I c.a.n t-r.ust.

I. b-e-l.i-eve .w.e- h.a-ve a m.o-l.e. in o.u.r. team. I have
narrowed it down to 4 of our undercover agents.

T.h-ey all h-a-v.e 1 t.hing in c-o.mmon, th-at they have all been
assigned to retrieve information from different tech
companies.

The reason behind me thinking that we have a security breach
is because our computers have a virus that was manually
uploaded into the system, however we have no idea what type
of virus has been uploaded which means our tech team cannot
tackle the problem at hand.

What I need you to do is

- Figure out who the rogue agent is? **TOBY**
- What the virus is called?
- Where the agent was last seen? **SINGAPORE**
- What was the company called the designed the virus?

You cannot share this information with anyone.

This Fingerprint was recovered from the disposable phone the text messages was taken from...

These are screen shots from a disposable phone an agent picked up. I believe this phone was used by the rogue agent.

The messages have been coded so if you can decode it you may be able to retrieve some vital intel.

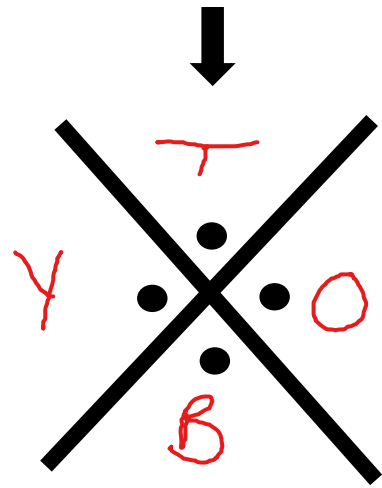

P.s you may find it easier to cut them out...
